## Fur Coats, Rugs and Robes.

I will take orders for those who wish to have hides made into coats, robes, rugs, and gloves, and can save you money.

## NORTH PLATTE JUNK HOUSE.

A heavy rain, lasting about ten minutes, fell Saturday evening, and soon after the temperature dropped. Sunday was cloudy and cool with the temperature not ascending above sixty-five and during the night dropped to fifty. Yesterday was cloudy, with a temperature that made a light wrap not uncomfortable.

Miss Frances Bremer left Sunday for Wisner, Neb., to attend school.

## Grading Lincoln Highway.

The county grading outfit has resumed work on the Lincoln Highway between this city and Maxwell. When this grading is completed more or less of the road will be covered with gravel. Commissioner Springer has five or six teams hauling gravel on the highway just west of Brady and hopes next week to secure teams to haul gravel at points between here and Maxwell.

C. C. Hupfer and Charley Herrod, who are up in the Jackson Hole country hunting elk, have not yet wired The Tribune of their success, but it is probable that ere this each has brought down his animal. Each hunter under the law, is allowed to kill but one elk. It is probable they will be home in a few days.

County Treasurer Souder says the tracts of land on which the 1916 tax has not been paid is unusually small. The tracts on which the tax has not been paid will be advertised October first and sold for taxes November first.

Col. Jim White, who was down from Sutherland yesterday said the sugar beet crop in the valley this season will be the best he has ever known—and Col. Jim is an authority on sugar beets.

Mrs. Minor Morrow and children, who had been visiting at the Baldock home, returned to Council Bluffs yesterday.

Harry Beagle returned to Grand Island yesterday after visiting local friends for several days.

## COMPANY E WILL LEAVE TOMORROW MORNING AT 8:10

The long tedious wait for orders to proceed to Ft. Deming, N. M., has at last ended, and Company E will en-train at 8:10 tomorrow morning. Sunday afternoon Captain Halligan received a wire directing him to be ready to move his men on short notice or as soon as the Union Pacific could furnish cars. Yesterday afternoon he was notified by the Union Pacific that the cars would be ready Wednesday morning and that a special train running as second section of train No. 16 would convey the North Platte company as well as the Gothenburg company to Kansas City, going via the Gibbon cutoff.

Yesterday an express car was placed on a sidetrack and much of the equipment of Company E was loaded therein. The rest of the equipment other than the personal accoutrements will be loaded today.

Now that the leaving time is definitely known it is up to our citizens to turn out en masse and give the boys a hearty and enthusiastic farewell.

Their removal to Grand Island will be regretted by many friends.

## DODGE BROTHERS MOTOR CAR

They Stand Up. More is said about the lasting qualities of a Dodge car, and more cars are sold because of this quality, than for any other reason.

An All-Round Car. But you will find that the Dodge has many things besides stamina and quality of parts. These other qualities are in addition to what the buyer expected and a pleasant surprise to him. Here are a few of these other qualities you will find:

Efficient electric starter, will start the car on the coldest day, and the car will hit on all cylinders and pull from the jump-off. Unusual with present day gasoline, but ask any owner.

A permanent body finish—the only finish which stands up under our alkali mud.

The U. S. Government buys Dodge Brothers cars because they stand up; you will order your Dodge car not only because it is an all around family car, big enough, powerful enough and fine enough for 90 per cent of us. An enormous oversale makes it necessary to ask for your early order if you would have your Dodge Car this fall.
